Internal market

Article 1

The Community shall adopt measures intended progressively to establish the internal market in the course of a period expiring on 31 December 1992, in accordance with the following provisions, without prejudice to the other provisions of the Treaty.

The internal market shall comprise an area without internal frontiers in which the free movement of goods, persons, services and capital is ensured in accordance with the provisions of the Treaty.

Article 2

1. In Articles 28; 57(2), second sentence;⁽²⁾ 59, second paragraph; 70(1)⁽²⁾ and 84 the terms 'unanimously' or 'unanimity' shall be replaced by 'by a qualified majority' or 'a qualified majority' respectively.

2. The provisions of Article 99 shall be replaced by the following: The Council shall, acting unanimously on a proposal from the Commission and after consulting the European Parliament, adopt provisions on the harmonization of legislation concerning turnover taxes, excise duties and other forms of indirect taxation to the extent that such harmonization is necessary to ensure the establishment and the operation of the internal market within the time limits laid down in Article 1.

3. Article 100a shall be inserted after Article 100.

Article 100a

By way of derogation from Article 100 and save where otherwise provided in this Treaty, the following provisions shall apply for the attainment of the objectives of Article 1. The Council shall, acting by a qualified majority on a proposal from the Commission after consulting the European Parliament and the Economic and Social Committee, adopt the measures for the approximation of the provisions laid down by law, regulation or administrative action in Member States which have as their object the establishment and operation of the internal market.

The first paragraph shall not apply to fiscal provisions, to those relating to the free movement of persons nor to those relating to the rights and interests of employed persons.

The Commission's proposals for the approximation of laws on health, safety, environment protection and consumer protection will be based on a high level of protection.

If, after the adoption of a harmonization measure or a Decision pursuant to Article 6 by the Council acting by a qualified majority, a Member State deems it necessary to apply national provisions on grounds of major needs as referred to in Article 36, or relating to protection of the working environment and the natural environment, it shall notify the Commission of these provisions.

The Commission shall confirm the provisions involved after having verified that they are not a means of arbitrary discrimination or disguised restriction in trade between Member States.

By way of derogation from the procedure laid down in Articles 169 and 170, the Commission or any

Member State may bring the matter directly before the Court of Justice if it considers that another Member State is making improper use of the powers provided for in this Article.

The harmonization measures referred to above shall, in appropriate cases, include a safeguard clause authorizing the Member States to take, for one or more of the non-economic reasons referred to in Article 36 of the Treaty, provisional measures subject to a Community control procedure.

Article 3

When drawing up its proposals with a view to achieving the objectives of Article 1, the Commission shall take into account the extent of the effort that certain economies showing differences in development will have to sustain during the period of establishment of the internal market and it may propose appropriate provisions.

If these provisions take the form of derogations, they must be of a temporary nature and must cause the least possible disturbance to the functioning of the common market.

Article 4

Delegation of competence to the Commission to be regulated on the basis of the decision on the powers of execution of the Commission. The Commission has proposed an Advisory Committee.

Article 5

The Commission shall deliver a report to the Council before 31 December 1988 and again before 31 December 1990 on the progress made towards achieving the internal market within the time limit fixed in Article 1.

The Council, acting by a qualified majority on a proposal from the Commission, shall determine the guidelines and conditions necessary to ensure balanced progress in all the sectors concerned.

Article 6

During 1992, the Commission shall, together with each Member State, draw up an enumeration of national laws, regulations and administrative provisions which fall under Article 100a and which have not been harmonized pursuant to that Article.

The Council, acting in accordance with the provisions of Article 100a, may decide that the provisions in force in a Member State must be recognized as being equivalent to those applied by another Member State.

The Commission shall draw up the enumeration referred to in the first paragraph and shall submit appropriate proposals in good time so as to allow the Council to act before the end of 1992.

Article 7⁽³⁾

The preceding provisions shall not derogate from the stipulations of the Treaty of Accession of Spain and Portugal.

Statements for inclusion in the record of the Conference

Re Article 1

The Conference wishes by means of the provisions in Article 1 to firmly express its political will to take the decisions necessary before 1 January 1993 to complete the internal market defined in the provisions in question. This particularly concerns decisions necessary to implement the Commission's programme

described in the White Paper on the Internal Market.

By setting the date of 31 December 1992, the Member States have not created a legal obligation.

— *Unilateral statement by Greece*

Greece considers that the development of Community policies and actions, and the adoption of measures on the basis of Articles 70(1) and 84, must both take place in such a way as not to harm sensitive sectors of Member States' economies.

Re Article 2(3)

In its proposals pursuant to the first paragraph of Article 100a the Commission shall give precedence to the use of the instrument of a directive if harmonization involves the amendment of legislative provisions in one or more Member States.

Re Article 6

The Conference considers that, since Article 3 is of general application, it also applies to the proposals which the Commission is required to make under Article 6.

General statement

Nothing in these provisions shall affect the right of Member States to take such measures as they consider necessary for the purpose of controlling immigration from third countries, and to combat terrorism, crime, the traffic in drugs and illicit trading in works of art and antiques.

Political declaration by the Government of the Member States

In order to promote the free movement of persons the Member States shall cooperate, without prejudice to the powers of the Community, in particular as regards the entry, movement and residence of nationals of third countries. They shall also cooperate in the combating of terrorism, crime, the traffic in drugs and illicit trading in works of art and antiques.
