AMENDMENTS

The Committee on Economic and Monetary Affairs calls on the Committee on Constitutional Affairs, as the committee responsible, to incorporate the following amendments in its report:

Amendment 1

Draft decision

Recital 1

Text proposed by the European Council

(1) Article 48(6) of the Treaty on European Union (TEU) allows the European Council, acting by unanimity after consulting the European Parliament, the Commission and, in certain cases, the European Central Bank, to adopt a decision amending all or part of the provisions of Part Three of the Treaty on the Functioning of the European Union (TFEU). Such a decision may not increase the competences conferred on the Union in the Treaties and its entry into force is conditional upon its subsequent approval by the Member States in accordance with their respective constitutional requirements.

Amendment

(1) Article 48(6) of the Treaty on European Union (TEU) allows the European Council, acting by unanimity after consulting the European Parliament, the Commission and, in certain cases, the European Central Bank, to adopt a decision amending all or part of the provisions of Part Three of the Treaty on the Functioning of the European Union (TFEU). Such a decision may not increase the competences conferred on the Union in the Treaties and its entry into force is conditional upon its subsequent approval by **all** the **EU** Member States in accordance with their respective constitutional requirements.

Justification

This amendment seeks to clarify which Member States of the European Union will have to approve the proposed Treaty change.

Amendment 2

Draft decision

Recital 3 a (new)

Text proposed by the European Council

Amendment

(3a) At its meeting on 16 December 2010 the European Council also agreed that Member States whose currency is not the

euro may decide to participate in operations conducted by the mechanism on an ad hoc basis.

Justification

This amendment is in line with conclusions of the European Council meeting from December 2010.

Amendment 3

Draft decision

Recital 4

Text proposed by the European Council

(4) The stability mechanism will provide **the** necessary tool for dealing with such cases of risk to the financial stability of the euro area **as a whole** as have been experienced in 2010, and **hence** help preserve the economic and financial stability of the Union itself. At its meeting of 16 December 2010, the European Council agreed that, as this mechanism is designed to safeguard the financial stability of the euro area as whole, Article 122(2) of the TFEU will no longer be needed for such purposes. **The Heads of State or Government therefore agreed that it should not be used for such purposes.**

Amendment

(4) The stability mechanism will provide **a** necessary tool for dealing with such cases of risk to the financial stability of the euro area, **composed of the Member States whose currency is the euro**, as have been experienced in 2010, and help preserve the economic and financial stability of the Union itself. At its meeting on 16 December 2010, the European Council agreed that, as this mechanism is designed to safeguard the financial stability of the euro area as whole, Article 122(2) TFEU will no longer be needed for such purposes **as from the date of entry into force of this Decision.**

Amendment 4

Draft decision

Recital 4 a (new)

Text proposed by the European Council

Amendment

(4a) The stability mechanism will supplement additional measures used to reduce risks to financial stability including the strengthening of the preventive and corrective arm of the Stability and Growth Pact, stronger surveillance of national budgets, and the

use of new macro-economic imbalances procedures.

Amendment 5

Draft decision Recital 4 b (new)

Text proposed by the European Council

Amendment

(4b) The Member States, particularly those whose currency is the euro, need to work together in a spirit of solidarity to tackle issues relating to medium and long-term competitiveness and macro-economic imbalances between Member States.

Amendment 6

Draft decision Recital 4 c (new)

Text proposed by the European Council

Amendment

(4c) The Commission should draw up as a proposal for adoption under the ordinary legislative procedure a detailed set of rules laying down the way in which the stability mechanism will be governed and operated, and should specify which instruments are to be used within its remit.

Amendment 7

Draft decision Recital 4 d (new)

Text proposed by the European Council

Amendment

(4d) The Commission should also look at other mechanisms to ensure the financial stability of the euro area, and should

make the necessary legislative proposals.

Amendment 8

Draft decision Recital 4 e (new)

Text proposed by the European Council

Amendment

(4e) The Commission should investigate the potential of a future system of eurobonds, as an additional mechanism for preserving the stability of the euro area, and in particular should look into the conditions under which such a system would be beneficial to all participating Member States and to the euro area as a whole.

Amendment 9

Draft decision Recital 4 f (new)

Text proposed by the European Council

Amendment

(4f) The crisis has highlighted the need to speed up a balanced, sustainable and fully fledged economic convergence process and policy coordination going beyond the current framework and thus contributing to the strengthening of the Union method. Accordingly, any further revision of the TFEU under the normal procedure should contain proposals aimed at ensuring that provisions relating to the establishment and functioning of any stability mechanism are integrated and implemented under the Union method.
